SYED ALTHAMAS

Fresher Data Analyst | SQL | Power BI | Python | Advanced Excel | MBA Finance

Hyderabad, Telangana | +91 7207040700 | althamassyed@gmail.com | linkedin.com/in/syed-althamas | github.com/althamas-syed | syedalthamas.me

PROFESSIONAL SUMMARY

Fresher Data Analyst with an MBA in Finance. Hands-on internship experience in SQL reporting, Python data validation and Power BI dashboards, with strengths in data cleaning, reconciliation and MIS reporting. Open to Data Analyst, BI and Finance Analyst roles; open to relocate anywhere in India, including Hyderabad.

TECHNICAL SKILLS

SQL & Databases: SQL Server, MySQL, T-SQL, Joins, CTEs, Window Functions, Subqueries, Aggregations, CASE WHEN

Python & Analysis: Python, Pandas, NumPy, Jupyter Notebook, Data Cleaning, Data Validation, EDA, Reconciliation, Root-Cause Analysis

BI & Visualization: Power BI, Tableau, DAX, Power Query, Dashboards, KPI Reporting, Data Modeling, Star Schema, Data Visualization

Excel & Reporting: Advanced Excel, PivotTables, XLOOKUP, VLOOKUP, SUMIFS, Conditional Formatting, Charts, MIS Reporting, Report Automation

Business Analysis: Trend Analysis, Insight Generation, Profitability Analysis, RFM Segmentation, Cohort Retention, Data Quality Checks, Stakeholder Reporting

WORK EXPERIENCE

Data Analyst Intern - Analytics Space LLP (Remote)

Apr 2026 - May 2026

- Completed an end-to-end retail performance and customer behavior analytics project, from raw data to reporting.
- Wrote SQL analyses covering revenue trends, customer behavior and cohort retention for retail datasets.
- Built Power BI dashboards and RFM reports segmenting customers into Champions, Loyal and At-Risk groups.

Data Analyst Intern - Intellectra AI Solutions Pvt. Ltd. (Remote)

May 2026

- Completed a retail profit-leakage and demand-optimization project.
- Developed Python (Pandas) and SQL data-cleaning and validation workflows across multi-table datasets, checking duplicate keys, inconsistent identifiers, unmatched product records and date anomalies.
- Reconciled analytical metrics between Python and SQL and documented data-quality exceptions for KPI reporting.

PROJECTS

Retail Performance & Customer Analytics (RetailNova dataset project)

SQL Server, Python, Power BI

- Built a five-page Power BI report with RFM customer segmentation and store-level KPIs.
- Cleaned and integrated sales, customer, product, store and returns datasets in Python, loaded them into SQL Server and answered business questions in T-SQL.

Swiggy Food Delivery Analytics (dataset project)

Microsoft Fabric, SQL, Power BI

- Built an end-to-end data-warehouse pipeline on Microsoft Fabric (Lakehouse, Data Warehouse, Semantic Model, DirectLake Power BI report) for food-delivery sales analysis.

Retail Chain Profit Leakage & Demand Optimization

Python, SQL

- Profiled a seven-dataset retail dataset; investigated duplicate keys, inconsistent store IDs, unmatched products and vendor-delay discrepancies.
- Applied K-Means clustering to group customers into cohorts for retention targeting.
- Analyzed approved and matched refunds, monthly margins and demand patterns to surface profit-leakage sources.

EDUCATION & TRAINING

MBA, Finance - Santhiram Engineering College, Nandyal (JNTU Anantapur) 2023 - 2025

B.Com, Computer Applications - Rayalaseema University, Kurnool 2020 - 2023

Eight-month data analytics training program (Data Analytics with Generative AI) - ExcellenC

CERTIFICATIONS

SQL (Intermediate), HackerRank • Intermediate Python, DataCamp • Data Analyst Skill Certification, OneRoadmap • Deloitte Data Analytics Job Simulation, Forage
